## OBJECTIVE

A highly motivated B.Tech graduate in Computer Science (IT) with a strong foundation in Software Testing concepts, SDLC/STLC, and defect life cycle, software development and problem solving. Ready to apply my skills to real-world challenges in the tech field. Looking for a suitable role where I can contribute to innovative projects and learn from experienced professional and grow up my skills.

## EDUCATION

**Bachelor of Technology (Computer Science and Information Technology)**          **2021-25**
IPS ACADEMY Institute Of Engineering & Science, Indore                          **CGPA: 8.25/10**

**12$^{th}$ Science (PCM)**                                                         **2020-21**
Sahara Public School, Kalapipal                                              **Percentage: 96.6%**

## PROJECTS (link)

### TRANQUIL TIDES

- A mood prediction web application which is developed with front-end technologies.
- It predicts the mood of a person on their self assessment points.
- Utilized **HTML, CSS, JAVASCRIPT and NODE.JS** to develop the project.
- Also suggests relaxation techniques on the mood score.

### ONLINE NETFLIX WEBAPP

- Desinged and executed test case for login, movie search and watch functionality.
- Performed **Functional and System testing** to validate requirements.
- Logged defects using **JIRA** and create Excel Report.

### COLLEGE INSIDER

- An activities management web application for colleges students.
- Developed using **JAVA** as main programming language with **SQL** database.
- Perform **Database Testing** using SQL qurries.

## TECHNICAL SKILLS

- **Languages:** Java, Python, SQL
- **Developer Tools:** Git, AWS, VS Code.
- **Testing Concepts:** SDLC, STLC, Test Case Desing & Execution.
- **Database:** MySQL
- **Bug Tracking Tools:** JIRA, Excel report.
- **Automation Tools:** Selenium WebDriver (beginner).

## SOFT SKILL

- Team Leader & Dicision Making
- Project Coordination & Critical thinking
- Time Management
- Documentation & Analysis
- Bugs Tracking
- Test Cases

## Experience

- Web Development Intern | Remote at Oasis Infobyte |2 Months | Certificate
- Java Development Intern | Remote at Code Clause |2 Months | Certificate

## RELEVENT COURSEWORK

- Data Structure & Algorithms
- Object Oriented Programming
- Database Management System
- Software Engineering & Project Management

## CERTIFIED COURSES  (link)

- Java Certification Course
- AWS Cloud Foundation
